

# CLAYMATES

## In The Classroom

### Art & Storytelling

Give small groups clay, eyes, and random objects. Have each participant create a character and have them collaboratively write a story that ties the characters together.

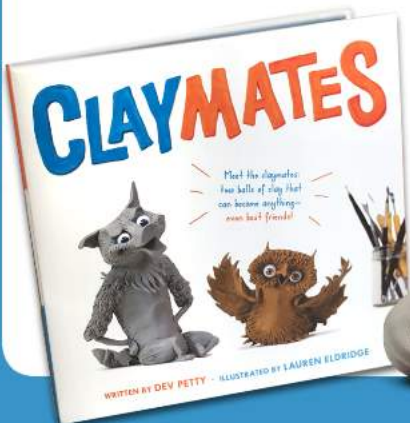

Give small groups variables to use to create a story on the fly. Select these randomly so participants work with what they get. These might be objects, locations, feelings, or characters.

## More Fun:

Stop Motion animate characters using free Ipad Stop Motion apps

Have one student start a drawing, story, or character and have another add on...Take Turns!

## Experiment and PLAY!
