

Intarsia Chart

## LINING

Measure the height, width, and depth (gusset) of your finished and blocked bag. Cut two pieces of lining that are (the width of the bag + 1¼") × (the bag height + ½ the bag depth + 1¼"). Cut two pieces of iron-on interfacing to these same dimensions.

Iron interfacing to WS of lining pieces.

## ASSEMBLY

Align lining pieces with RS together and pin side edges. Sew side seams with ⅝" allowance. Press seams flat, then press open. Pin bottom edge 3" from each side. Sew bottom seam from sides toward center, leaving center open. Press seam as for sides.

To close bottom ends and form gusset, match side seams to bottom seams and flatten, then sew across with ⅝" allowance. Press seam as before.

Mark handle placement on knit bag. Cut four 2" × 2" pieces of iron-on interfacing. Turn knit bag inside out and iron interfacing to each spot and sew handles in place. Place bag into lining with RS together. Fold 2" knit hem over edge of lining and pin in place (ONLY through hem and lining). Sew lining in place. Tack plastic mesh into place at bottom of bag. Turn bag

RS out through opening in bottom of lining and sew opening closed.

**ABOUT KIMBERLI** I'm so glad my mom took my pleas to learn to knit and crochet seriously. My day job as a milliner involves traveling between Asia and New York City, with occasional stops in Europe. My travels have allowed me to enjoy another hobby: learning cuisines, recipes, and cooking styles around the world. I love to knit, crochet, sew, entertain, write recipes, sing karaoke, garden, and enjoy all New York City has to offer. You'll often find me with a hat on my head, a smile on my face, and knitting in my bag. Read about my creations and travels at [www.kimberlinewyork.blogspot.com](http://www.kimberlinewyork.blogspot.com).
