# Welcome to 2024

And the intersection of a brand-new tagline and more than 45 years of excellence

We've used a lot of words over the years to sum up our calendar publishing program, but we think these really say it best. **Workman Calendars: Don't just count the days. Make the days count.** We offer calendars that indulge our readers' passions every

day, that uplift and inspire, and that give them a way to showcase what matters to them, whether on their kitchen countertops or their office walls. A Workman Calendar goes beyond organizing and planning; it really does make the days richer.

It's in this vein that we continue for 2024, with a list as large as any we've published, and including new titles in some of our bestselling categories like trivia, puzzles, humor, trends, and stunning

artwork. A few wall calendars to single out: **Gnome Life**, with all the timeless irresistibility of a classic illustrated book. A dazzling new series of regional

nature calendars from Photo Cascadia, a collective of photographers operating out of the Pacific Northwest—they will show you Hawai'i, Alaska, Oregon, and Washington like you've never seen them before. Another breathtaking venture into the wild, **Peak Moments**, this one from extreme adventurer and mountaineer Jimmy Chin—hang on to your chair! And a few exciting tie-ins for real fans, including **The Gilded Age** and **All Creatures Great and Small**.

Our classic Page-A-Day line also includes new titles in our strong areas of humor, hot trends, and puzzles: **Mom Life** is packed with we-see-you humor just for moms; **Modern Witchcraft** and **Millennial Therapist** make the most of the latest magic and mental health movements; and we introduce a whole new kind of puzzle calendar with **Brain Power Word Search**.

To satisfy a reader's passion, or obsession, or just the thing that makes them smile . . . well, that's where we think our calendars count the most.

# PAGE-A-DAY® CALENDARS
