

DON'T LEAF IT BEHIND

Like trees, leaves come in many different shapes. Look at the shapes of the leaves below and draw the other half of each one. Try to match the margin (the edges) and the venation (pattern of the veins), then color it in.

Lacebark Elm

Gambel Oak

Ginkgo

HOW OLD WAS THIS TREE?

The age of a tree can be determined by counting the growth rings in a cross section of its trunk. Count the rings and write the age of the tree here:

_____ years old

growth ring
