The Complete Guide to Restoring Your Soil: Improve Water Retention and Infiltration; Support Microorganisms and Other Soil Life; Capture More Sunlight; and Build Better Soil with No-Till, Cover Crops, and Carbon-Based Soil Amendments

Dale Strickler

Healthy soil is key to sustaining life on Earth. While more and more people are starting to see the need for soil restoration, there is very little understanding of just how it can be accomplished. There is a rapidly emerging demand for a "how to" manual for soil restoration. Dale Strickler is an ex...
